Let Cuticura Care for Baby's Skin

It's really wonderful how quickly a hot bath with Cuticura Soap followed by a gentle anointing with Cuticura Ointment relieves skin irritations which keep baby wakeful and restless, permits sleep for infant and rest for mother, and points to health in most cases when it seems nothing would help.

Sample Each Free by Mail. Address post: "Cuticura, Dept. N, Boston, U.S.A." Sold by dealers throughout the world.

To Aid Pork Production

Bank Offers to Lend Substantial Money Under Club Plan

The Scotia Bank, branch of the Merchants' Bank of Canada, has announced the organization of a boys' and girls' Pig Club and is prepared to lend sufficient money to any child between the ages of eight and ten years, to purchase two pigs—one to be raised for meat purposes, and the other to be retained in order, a litter of pigs be raised the following year. The bank states that one of its principal objects in forming this club is to assist in increasing pork production. Special prizes will be offered to the members.

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifest in disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than **Parmelee's Vegetable Pills**. Thousands can attest the virtue of these pills in curing nervous disorders.

Suggestion for Housewives

"John," said Mrs. Jenkins, looking up from the evening paper, "You know how many dishes Kate has broken lately?"

"Yes," replied John; "what of it?"

"Well," continued the lady, "there is something here in the paper about steel plates. I don't know just what they are, but I should think they might be indestructible and the very thing we need."—*Liverpool Post.*

A Colored Miracle

Have You Done Lost Yo Own Language

It was with the American army on the Lorraine front. He was a black boy from Alabama—Lonsome. He had been working in a stone quarry most all day and no one had said a word to him. He happened to look across the way and there was another black boy in khaki. The other black boy was a French colonial, but the American-black boy looked only at the face and the color of the uniform.

"Low niggah, how's tricks?" was the opening social parry.

No answer.

"Ah say niggah, does you know Ah's talkin' to you?"

Then astonishment. From the other black came a rattle of French that would put a machine gun to shame.

The black boy from Alabama gasped. He couldn't believe his eyes or his ears.

"Foh da Gawd's sake, niggah, has you been mixed up with these Frenchers so much you done lost yo' own language?" and he went back to work.

Did a Good Turn For an Old Friend

HOW TWO MEN PROVED THE WORTH OF DODD'S KIDNEY PILLS

Henry Burkhardt, of Saskatchewan, sent Dodd's Kidney Pills to Dakota, and His Friends Join in Their Praise.

Fox Valley, Sask., (Special).—"I tell everyone who suffers from kidney trouble to take Dodd's Kidney Pills." These are the words of Mr. Henry Burkhardt, of this place.

"I have used Dodd's Kidney Pills for eight months," Mr. Burkhardt continued, "and now I feel as well as ever I did in my life. I also sent one box to a friend who lives in Dakota, and who I know suffered from his kidneys."

"My friend wrote me to get him some more of Dodd's Kidney Pills, as the doctors could do nothing to help him. He said Dodd's Kidney Pills were the best medicine he had ever taken."

"I would not be without Dodd's Kidney Pills."

In the sparsely-settled parts of the West, where doctors are few, Dodd's Kidney Pills have long held an honored place in the family medicine chest. The conditions which are common to newly-settled prairie countries make kidney trouble one of the most prevalent ills, and the settlers who discover the splendid results to be obtained from Dodd's Kidney Pills. Ask your neighbor about them.

Nearly Human Horse is Dead

Paddy R. Knew Enough to Treat His Own Broken Leg

Sportsmen who have followed the horse racing game 20 or 25 years ago will be interested in the fact that one of the wonder horses of that time, Paddy R., the matinee marvel, recently died at Carman, Manitoba.

Paddy R. was renowned, not only for his great speed and endurance, but because of his wonderful intelligence. It is recorded of him that in 1896, while racing at the old track at St. Thomas, Ont., he broke his leg. Instead of behaving as other animals do in similar circumstances, he lay down on a stoneboat, on which he was taken to the railway station and sent to his Watford home, without even having a bridle on his head. During his illness he took such good care of his injured leg that it healed quickly, and he was able a few months later to race again and establish his record.

It is claimed by some lovers of "man's best friend" that a good horse is more intelligent than any dog, and the action of Paddy R. goes a long way towards proving this contention.

Had Her Placed

An old lady was being shown over a country seat in North Wales which is famous for its fine pictures. One of these was a portrait of "Neil Gwynn, after Sir Peter Leidy." The old dame gazed at this picture with marked interest.

"So that's the lussy, is it?" she remarked presently. "But I always thought it was King Charles she was after."—*Fit-Bits.*

Eat More Fish

Canada Has Vast Fish Resources Which Can Supply Unlimited Amount

Efforts have been made throughout Canada to produce and market more fish. This country has fish resources, which have been exploited commercially for the export trade but only in the big cities have fresh fish been available regularly to private consumers. On the Pacific coast and the Atlantic coast, on the lakes of the west, on the lakes of Northern Ontario, and the Great Lakes, fishermen will procure fish if the demand for it becomes regular and constant. Eat more fish and save meat for the men at the front.

THE BEST MEDICINE FOR LITTLE ONES

There is no medicine for little ones to equal Baby's Own Tablets. The Tablets are a mild but thorough laxative; pleasant to take; do not grip and never fail to relieve the little one of constipation, indigestion, colic or other minor ailments.

Concerning them Mrs. J. M. McFarlane, Eel River Ridge, N.B., writes:—"I believe Baby's Own Tablets are the best medicine for little ones I have ever used. I can say from experience I would recommend every mother to keep a box on hand." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Kerenky Said to Be Safe

Alexander Kerenky, Russia's man of the hour at the dethronement of the Romanoffs, and who in turn was overthrown by the Bolsheviks, is safe and among friends, according to authoritative information received by Russians in New York.

"Kerenky is safe, and among friends," an official declared. "He is not in the best of health and is resting quietly."

"His condition is far from serious however, and when the time comes he may again exert his powerful personality in the order and good government to Russia."

A Woman's Burdens

are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict womanhood, let her find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she is overworked, nervous, or "run down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years, in his large medical practice among women. For young girls just entering womanhood; for women in middle life, the "Favorite Prescription" is the only medicine put up without alcohol, and can be had in tablet as well as liquid form. It's not a secret prescription for its ingredients are printed on wrapper. Send 10c for trial package to Dr. V. M. Pierce, Invalids' Hotel, Surgical Institute, Buffalo, N. Y., or branch in Bridgeburg, Ont., Hamilton, Ont.

"When passing through middle life, as in most cases of this kind, I began to fail in health. I had severe pains in my head, dizzy spells, my back ached and my limbs were aching. I became very weak and nervous. I took medicine without getting relief until I took Dr. Pierce's Favorite Prescription and this medicine built me up in health and strength and I came through this critical period in a good healthy state. Women will find Dr. Pierce's Favorite Prescription very helpful during this trying time."—*Mrs. SARAH CARP, 108 Mohlen Ave.*

Sensitiveness Spells Failure

You'll Never Hold a Big Job Until You Can Forget Your Own Petty Self

In an article called "How I Cured Myself of Being Sensitive," a writer says in *The American Magazine*: "Vagueness is the enemy of ability," he cried, "but you'll never get anywhere in this world until you quit tearing yourself to pieces! I've watched you for the past three years—twice I've had it in mind to push you up a notch in the office, and every time I've passed you and picked someone else, because I know you aren't fit to handle other men. No man is fit to handle other men until he has learned to control himself. You can't, you're too blamed sensitive self, and you're fairly useful to you in your present job, and it might put me to some annoyance to lose you. But you'll never hold a big job until you can forget your own petty self and learn to laugh when the world takes a crack at you. Hanged if I don't think sometimes it might be better if you were to get on and try your hand somewhere else."

Miller's Worm Powders are a pleasant medicine for worm-infested children that they will take without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Still in Bondage

A lawyer travelling through Alabama with much interest in Uncle Ned.

"So you were once a slave, eh?" said he.

"Yes, sah," said Uncle Ned.

"How thrilling!" said the lawyer.

"And after that you got your freedom, eh?"

"No, sah," said Ned gloomily. "I didn't get my freedom. After the war I done got married!"—*Case and Comment.*

German Destructiveness

Description of Devastation Wrought by the Huns

"Louvain will remain perhaps the classic instance of Schrecklichkeit," says Braine, "whitened in everybody's face for May, 'but Vise was worse.' To day, lying along the Meuse is a silent city; its empty chambers open to the sky. It might be Pompeii. Those ruins might have lain there for centuries. There is not a living being there. The devastation, the destruction are absolute, the science complete; it is the very abomination of desolation, a mass of brick and stone and charred beams, crumbling white facades, whose windows, with their casements blackened by fire, stare like the hollow sockets of skulls. Of the four thousand inhabitants, not one is there, not a house is standing, not a roof remains. The taverna where the people used to go in joyous bands to eat the famous roast goose, are heaps of cinders; the very trees in their gardens, under whose boughs the youth of Liege used to dance the tarmagnon, have been burned. The scaling walls of the church tremble in the wind, the roof has fallen in; the towers with their bells, the organs, the statues, have tumbled into bits. The work that would have required ages, was accomplished by German organization in a night."

Sir James Outram was in town last week end.

Doctor Alex. Emmett, who has just commenced practice at Kirriemuir, was in town on Wednesday.

Everybody who is anybody was in town on Friday and took away some of our sand.

The wind and dust on Friday was the only drawback to a great patriotic day.

There was no evidence of booze anywhere and it is a great gain that such a day can pass without any trouble for the police.

Divine Service in the Anglican Church, Monitor, at 11 a.m. on Sunday.

The committee of the Sound- ing Lake picnic have secured Mrs. Dowler, of Veteran, as an additional speaker.

A nasty prairie fire, appar- ently started by a spark from the train, started just east of town on Thursday morning and swept south by a strong wind licked up the pasture on the flat be- yond the hill for about five miles before it was controlled.

The trees brought in last week made the town look cool and refreshing. So realistic were they staged that a lady visitor thought they were really growing and congratulated us on being so successful with them.

War-time gardeners should not relax their efforts because it is too hot to be comfortable in the garden. It is too hot to be comfortable in the trenches but the war goes on. Keep on hoeing. The results will be worth it. The hoe is more val- uable than the water can, for when the clerk of the weather turns on his hose your garden will be ready for it.

Monitor school children have arranged a most interesting concert for next Thursday, the 27th. In addition to some good choruses and fancy drills they are staging a play entitled "The making of Canada's Flag." As the proceeds are for the Red Cross we hope they'll have a crowded hall.

WEDDING. — On Wednesday morning a pretty wedding took place in the Anglican Church, when Rev. W. S. Wickenden performed the ceremony of uniting in holy matrimony Mr. A. S. Brown and Miss F. N. Cant. The bride, who was attired in a gown of crepe de chine and a wreath of orange blossoms, was given away by Mr. F. J. B. Curtis, and the bridegroom was attended by Mr. A. Grace as best man. After the ceremony a wedding breakfast was served at the home of Mr. and Mrs. A. Grace and the happy couple departed on the west-bound train for Calgary for the honey- moon with the best wishes of their many friends.

A Privilege and a Duty.

Saturday, June 22nd, is the date that has been fixed by the Government for the registra- tion of all persons, male and female, of 16 years and over, resident in Canada. It is a day upon which every Canadian will be afforded an opportunity of re-dedicating himself to the greatest cause which ever en- gaged the attention of man- kind. It is a day upon which a free people, strengthened by sacrifice, will reiterate their un- alterable determination to en- dure to the end.

And so tomorrow is to be a day of privilege as well as a

day of duty; a day that will go down in history as one of the milestones in Canada's partici- pation in the war.

The Canadian people are a unit in their determination to exert their full strength in the colossal struggle now being waged for the integrity of free institutions. But they will not be in a position to exert their full strength until they know its precise measure in terms of manpower. Registration Day will supply this information and so enable the country to work up to its maximum effort. Monitor people register at the School, and should get their cards early from the school- master.

THE SUFFERINGS OF THE BELGIANS UNDER IRON HEEL OF GERMANY

THE BELGIAN DEATH RATE EQUALS AN EPIDEMIC

Apart From Losses On the Battlefield, the Civilian Population Of Belgium Is Being Gradually Decimated By the Brutal Methods Employed By the Huns

It has escaped general notice that the existing death rate in Belgium is as high as at the time of the most terrible epidemics, and greater than that on the battlefield. This is due to the extremities to which German occupation has reduced the country.

In addition, at least one Belgian is executed daily by the German authorities, according to a statement just issued by the Belgian legation, as follows:

"Not taking into account the losses on the field of battle, Belgium has suffered heavily in its civilian population through the invasion and occupation of its territory by the Germans.

"During the invasion of August-September, 1914, we know the number of victims to be well over 5,000. For the following provinces we have approximate estimates: Namur, more than 1,800; Luxembourg, about 1,200; Liege, more than 1,000; Brabant, 897; Hainaut, about 300."

Among the deportees the mortality resulting from privations, ill treatment and underfeeding, exceeds largely the normal percentage of deaths. Some, who have met death on the battlefield, where the Germans forced them to do auxiliary work.

The electrified wire which makes the Belgians prisoners in their own country, accounts for a great number of victims, especially among young people who try to escape in order to join the army or among couriers who try to smuggle news in or out of Belgium. In less than a year, between August, 1914, and August, 1917, 160 persons had been electrocuted. Since then the average number of victims has increased, owing to the strengthening of the guards, and the putting up of new wires.

"The death penalty pronounced by the German military courts for crimes of patriotism levels a heavy toll on the population. It is estimated that each day one Belgian at least suffers the supreme penalty.

"Through lack of physical strength many people become unable to resist slight illness, which, under normal conditions, would not prove fatal. As to the bad effect of unsuitable substitutes, it will suffice to recall the diseases contracted by the deportees through the use of raw rutabagas and the paralysis of brain and the special kind of jaundice provoked by the use of seeds as a substitute for coffee berries.

"The situation in 1918 can only grow worse, since it is undeniable that the physical standard of the nation is lowering dangerously, and that the effects of the German occupation on the health of the people will make themselves felt for a long time after the war."

Europe's Hungry Millions

Not Enough Food to Go Around, Even If Shipping Were Available

A more detailed account of a recent speech under the title "Peace Without Plenty," by Sir William Goode, K.B.E., Liaison officer of the British minister of food with the Canada food board, has been received. Sir William pointed out that the deductions were made by those, including himself, who had access to all the necessary secret data bearing on food supplies now available, or likely to be available, to the allies.

He said that Germany, Austria-Hungary, Bulgaria, and Turkey, with a population of 130,000,000, are, and have been, subsisting on rations so attenuated as to rob life of comfort, and make continued existence of doubtful value. Under the domination of these central powers are another 45,000,000 Belgians, French, Serbs, Italians, Poles, Armenians and Rumanians. Twenty-five million people in Switzerland, Holland, Denmark, Sweden and Norway are also very short of food. Russia, owing to internal disintegration, can no longer be regarded by friend or enemy as a food exporting country.

"Leaving Russia out of consideration, there are therefore about 200 million people in Europe who are getting even less food per day than the people of Great Britain are getting under the existence scheme of compulsory rationing."

Mistress—Did anyone call while I was out?

New Girl—Yes, mum; Mrs. Wayup called.

Mistress—Did she seem disappointed when you said I was not at home?

New Girl—Well, she did look a little queer; but I told her she needn't get in a temper about it, 'cause it was really true this time.—Vancouver Province.

Germany's Poisoned Propaganda

How the Enemy Carried on Its Work in Russia and Italy

Evidence continues to accumulate of the poisoned propaganda still carried on by Germany, and that therefore calls for an analysis of the propaganda. A Washington dispatch, dated March 11, 1918, says: One of the most potent means by which the morals of the Russian army and people have been undermined has been by systematic work in propaganda among Russian prisoners. Like most other German activities, this has been thoroughly organized, and it shows greater psychological insight than many of the German methods. It is quite as unscrupulous as any method used by the Germans, and by which the Germans crushed the physical powers of their prisoners.

The article then proceeds to describe the Russian propaganda work, printed in Berlin, which was industriously circulated in the Russian army, barracks and prison camp. The prisoners received no newspapers, and nothing else to read, and they fell under the spell. It was circulated to produce feelings of gloom, hopelessness, and despair, and to encourage of dear ones at home. They pictured the life of the lowly Russian people as it is affected by war; it laid emphasis on the poverty everywhere, the sick, hungry children, the sobbing mothers, the war cripples neglected by all and begging at the cross roads, and in the streets. There was never a chery line to be found in this German-made Russian literature given to the prisoners of war. Its tenor was always the same: German strength and prosperity; Russian weakness in the field and weakness at home.

Edgar Ensler Mower, special war correspondent, writes from Rome under date of February 17, 1918, regarding the German-Austrian "poisoned propaganda" among the Italian troops.

"To increase the infection the Italians in the trenches were subjected to a paper offensive in the form of mysterious manifestos, purporting to be very important items of news to the soldiers. These mendacious projectiles were shot from guns in the form of great shells, which broke on concussion with the earth and scattered their broadcast; they were dropped by airmen. The lies they told were stupid enough, but they attacked the Italian in the weakest point, which is national pride.

Chiefly they referred to the high-handedness of hypothetical British action, and to the supposed treachery of anti-war uprisings in a score of Italian cities. An entire illustrated pamphlet was dedicated to the cause of French oppression in Italy, "the most recent British colony."

Had it not produced its little effect, this sowing of lurid fantasies and lies would seem but a wild theatrical extravagance. But when the sowing was deemed complete, Austrians and Germans went forward confidently to reap the harvest.

Prussian Conception of Duty

The Doctrine Is Amazing in Our Western Eyes

"Field Marshal Baron von der Goltz, the old eagle," according to Brand Whitlock in Everybody's for May, "came to Belgium announcing the doctrine, amazing in our western eyes, that the punishment for hostilities falls not only on the guilty but on the innocent as well.

"For forty years the writers and thinkers of the world have been working upon this theory.

"For forty years these doctrines were dinned into the German ear; by teachers, novelists, soldiers, statesmen, scientists, professors, theologians and pastors, all preached them. The army became the avatar of the state. Every man in the army, and there is but one law, one duty, one principle, one religion—obey. The private obeys the corporal, the corporal obeys the sergeant, the sergeant obeys the lieutenant, the captain, and so on up the scaffolding of the mounting grades, until all power, authority, all privilege, is vested finally in the general, the field marshal, and the general staff. Pastors exist only to assure them of the approval of the Teutonic God, and if the soldiers were called upon to defend their crimes and scientists to invent new methods of destruction."

Tips and Titles

Because the newly-commissioned major on the way to Toronto looked like ready money the porter had been very active in his attention. His movements were of the "hot-foot" variety whenever the officer appeared to require service. Also he was careful to address the major as "sir." And when the train neared the Union depot and following the usual use of the brush, the sable servant discovered himself in the possession of a dime, he was equal to the occasion. He clicked his heels together, saluted, and remarked: "Corral, Ah tank you, sah."—The Journal of Commerce.

GERMANS REALIZE THAT THEY HAVE EARNED HATRED OF THE WORLD

YET AFFECT TO TREAT IT WITH CONTEMPT

It Has Been Brought Home To Them That They Have Sinned Beyond Forgiveness, but Believe That a Military Victory Will Win Them a Respect Fought on Fear

"Do Germans know that their policy of 'frightfulness' has encompassed them with the hatred of the world? If they do know it, have they any searchings of heart, and why do they continue their course of lawless savagery?" People in allied countries naturally ask these questions, and are furnished with that remarkable book, "The Iron Ration," by George Abel Schreiner, who spent three war years in Germany, a contemporary of the Associated Press. The leaders of Germany, he says, knew that the Fatherland had not a friend excepting its allies, and discussed the question freely and openly. "A regular epidemic of introspective reasoning swept over the country. 'Are we really as bad as they make us out to be?' a German general asked Schreiner. The latter, a Boer, replied that the violation of Belgium and the sinking of the Lusitania had been mistakes, and that the Germans were reaping the harvest they sowed then. A similar question was put to Schreiner by General von Falkenhayn, the former German chief of staff. "He, too, failed to understand why the entire world should have turned its thumb against the Germans," General von Elstermann and General von Delmannsingen, who took part in the Rumanian operations, also inquired why the Germans were so cordially hated. Von Delmannsingen's comment is significant:

"It seems that there is nothing we can do to make ourselves respected. I am one of those Germans who would like to be loved. But that seems to be impossible. Very well! We will see! We will see what the sword can do. When a race has come to be so thoroughly detested as we seem to be, there is nothing left but to make itself respected. I fear that in the future that must be our policy."

Mr. Schreiner says he believes that von Delmannsingen spoke for the army without knowing it. What he said was the attitude of the vast majority of officers and men. Baron Burian, the Austro-Hungarian minister of foreign affairs, who is a Magyar, spoke freely of the world hatred for the central powers, but affected to treat it with contempt. "What difference will it make in the end whether we are called barbarians or not? Let the world of Jewry lead the way, then, under-secretary of state for foreign affairs, admitted that the Lusitania affair was a bad blunder, but pleaded that it had not been the

intention to torpedo the ship in a manner that would cause her immediate sinking. The hatred of Germany he described as a mania. "The world must have someone on whom it can pick," During the Boer war, he said, Great Britain was the victim. During the Russo-Japanese war, it was Russia. Today it was Germany, and tomorrow it would be somebody else.

Teutonic statesmen and soldiers apparently realize that they have sinned beyond forgiveness, but they have a belief, frankly revealed by General von Delmannsingen, that a military victory will win them a respect founded upon fear—the only kind of respect they can now hope for. This vicious mood demands the continued use of the atrocious and illegal methods which have earned Germany the detestation of humanity. But it is well that Germans feel the accumulated weight of the world's indignation. The morale of the people cannot always resist the pressure of this enormous moral force. In the end the masses must demand a reckoning of the leaders who have brought this punishment on their heads.—Toronto Globe.

Urge Prompt Action

Immediate Allied Intervention Necessary to Combat German Grip

The London press in general is urging the necessity of allied intervention of a prompt nature if what is alluded to as the rapid strengthening of the German grip on Russia is to be successfully combated. The newspapers refer to Lord Robert Cecil's house of commons remarks as the accumulating indications of the inability or unwillingness of the Bolsheviks to resist the German penetration, and in some instances the advocates of intervention reiterate the earlier pleas for allowing Japan to act. The insistence upon Japan's disinterestedness is renewed, as is Japanese loyalty to the alliance. The Daily Telegraph concludes the article with a warning: "The statement at Tokio has made it quite clear that they have no covetous aims. In order to support the general policy of the allies and especially to protect Siberia from Teutonic rapacity, Japan, we are convinced, is ready to act in any way that promotes the ideals of the entente powers."

SAWYER-MASSEY

11-22 GAS-OIL TRACTOR

THE SAWYER-MASSEY eighty year reputation for quality is behind this machine. The Sawyer-Massey intimate knowledge of the Canadian farmer's need is in it.

It has a vertical 4-cylinder valve-in-head motor, equipped with air-cleaner, high tension magneto and one adjustment carburetor.

The radiator is of unusually large capacity. Water circulation is positive.

Power is delivered to both tractor wheels and 75% of the tractor weight rests on the rear wheels.

Owners have found that these features have a direct bearing on the simple operation and long, reliable service given by the machine.

Our Bulletin No. 321 describes this Tractor. Bulletin describing our 17-34, 30-40 and 37-50 Tractors are also available.

FRIDAY, JUNE the 21st, 1918

Monitor Monitor Red Cross Carnival.

Nearly \$600 Raised for the
Red Cross.

The great day last Friday
drew large crowds to Monitor
and with a little more kindly
atmospheric conditions would
have been a pleasant
event. Nearly the whole day
a fierce hot wind blew clouds of
dust and sand which finally
drove crowds of people away
from the sports into town for
protection. At noon all shops
were closed and a great proces-
sion headed by the Town Band
paraded the streets. In the
centre of the procession was a
pretty tableau of school girls
dressed in white holding stream-
ers May-pole fashion repre-
senting all the provinces of
Canada, and whilst the Calli-
cumpinn cavalcade hauled in
centre street they sang sweetly
"O, Canada." There were comic
and symbolic cars representing
a homesteader with a team of
oxen and a binder, and a war
trophy, "Van Hindenberg as a
prisoner of the Boys in Khaki."
The sports would have been a
rare treat had it not been for
the clouds of dust, but the com-
petitors stuck to the events and
some exciting finishes were
seen.

The chief events were a 2-lap
trot won by Bob Fawcett's
Monitor Boy cleverly driven by
Dr. McMaster. The pony race
was well won by Mr. Veter's
Flying Fox capably ridden by
young Martin. In the Farmers'
Trot Mr. George Marshman's
horse won in a desperate finish.
The Free for All brought out a
big field and after a false start
and a lot of trouble with some
high spirited horses was won
in runaway style by Jack Ken-
nedy, of Bideford, on his famous
John W. The miscellaneous
events and foot races were all
well competed for and carried
through with much painstaking
effort by the committee.

A word of appreciation must
be tendered to the various com-
mittees who worked all day to
make the event a credit to
Monitor. Also to the ladies
who served the suppers in the
Big Hall—they missed the fun
at the sports but they did a
most useful work which was
well appreciated by the hungry
visitors.

The financial result is not yet
complete, but we may state that
it is expected to net about 575
dollars. The gate and tags
produced 390.15, the booths
137.80, the suppers 250.00, and
the dance 91.75.

HERE IS THE DAY YOU REGISTER.

ON June 22nd, Saturday, every man and
woman, resident in Canada, who is 16
years and over, must attend at one of the
places provided for registration, between the hours of 7 a.m. and
10 p.m., and there truthfully answer all the questions set forth upon the registration card.
Upon signing the card, vouching for the accuracy of the answers, the man or woman
will receive a Registration Certificate, as shown below, which must be carried upon the
person thereafter.

- Why the Certificate is so Important

For failure to register a maximum fine of \$100 and
one month's imprisonment is provided, also an added
penalty of \$10 for each day the person remains
unregistered after June 22nd.
Persons remaining unregistered cannot lawfully be
employed, and cannot draw wages for work done
after June 22nd. Employers who keep unregistered
persons in their employ will be liable for fines equal
in amount to those recoverable from the unregistered
employees.
Unregistered persons cannot lawfully purchase
transportation tickets, and may find themselves

barred from travelling on railroads, steamboats, etc.
Similarly they may be denied board and lodging at
any hotel, restaurant, public house or boarding house.
In a word—All persons remaining unregistered, and
all persons having dealings with unregistered
persons, knowing them to be such, incur heavy
penalties under the law.

Enduring Hardship

Hardships and Sacrifices of the Armies at the Front

There is also one more element in enduring hardship. It is the element of sacrifice. Our spirit of endurance will be in proportion to our spirit of sacrifice, and nowhere is sacrifice more needed than at home. It must all be borne with a noble endurance. It would be impossible to find words capable of expressing the hardships and sacrifices of the armies at the front. It has been marvelous to think of. Yet there seems to be a sacrifice at home harder to endure in many respects than the sacrifices on the firing line. It is the sacrifice made by mothers, wives and loved ones at home, who live in daily fear, constant suspense and hourly dread, sometimes suffering silent tortures in solitude in which even the excitement of a battlefield would bring relief.—London Free Press.

WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers—no pain

Just think! You can lift off any corn or callus without pain or soreness.

A Cincinnati man discovered this other compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the surrounding skin.

Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house.

Farm Machines Necessary

In the time of Nero, it took four and a half days' labor to raise a bushel of wheat. When the reaper was invented (1831), it took three hours. Today it takes ten minutes. This is a mechanical age on the farm as well as everywhere else, and the world has become absolutely dependent on farm machines.

A NERVOUS BREAKDOWN

Can Be Averted by Feeding the Starved Nerves With Rich, Red Blood

Nourish your nerves—that is the only way you can overcome life's worst misery, nervous exhaustion. The fits of depression, an irritation, the prostrating headaches, the weakness and trembling of the legs, the unsteady hand and the imperfect digestion that mark the victim of nerve weakness, must end in nervous breakdown if neglected.

Nourish your nerves by the natural process of filling your veins with rich, red, health-giving blood. Your nerves are crying out for pure blood and the mission of Dr. Williams' Pink Pills is to furnish new, rich blood. This explains why these pills have proved successful in so many cases of nervous disease that did not yield to ordinary treatment. For example, Mr. Wilfrid Donald, West Flamboro, Ont., says:—"Before I began the use of Dr. Williams' Pink Pills I was in a serious condition. I was not only badly run down, but my nerves seemed to be completely shattered. I slept badly at night, and when I got up in the morning I was as tired as when I went to bed. I seemed to be on the verge of a nervous breakdown. At this stage I began the use of Dr. Williams' Pink Pills. In the course of a few weeks I felt much relief, and continuing the use of the pills they completely restored my health. I now sleep soundly, eat well, and am enjoying complete freedom from the old nervous troubles."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from "The Dr. Williams' Medicine Co., Brockville, Ont."

His Only Hope

He was a proper professional conjurer, and was proceeding to get the audience under his spell, and commenced in real earnest.

"Now, ladies and gentlemen," he said, with a wave of the hand, "this is the magic cabinet. I invite any lady in the audience to enter this cabinet. I will then close the door, and when it shall be opened again, the lady will have disappeared, leaving no trace."

There was an impressive silence until a little, undersized man in the second row turned to an enormous woman who sat by him, and breathed eagerly.

"Maria, dear, won't you oblige the gentleman?"

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Balm very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the oil, and the result will be the prevention of pains in the muscles and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Unsinkable Ship

Dares U-boats and Delivers Cargo Without Trouble

An unsinkable ship, which boldly braved the dangers of the submarine zone as a challenge to the Hun U-boats, has returned safely to an Atlantic port. It is understood that the vessel left an Atlantic port in convoy of forty-three vessels, and when the fleet reached the danger zone the unsinkable ship left the convoy as a deliberate challenge to the undersea boats. No attempt was made to avoid the enemy's war vessels, and the ship headed a direct course for its destination, which was a French port. After delivering its cargo the vessel sailed, and a second time no attempt was made to sink it.

Feeding Garbage to Hogs

Many Cities in the United States are Saving More and Growing Pork

By feeding garbage to hogs instead of burning it, Minneapolis will save its taxpayers between \$50,000 and \$60,000 annually. The change became effective on April 1.

Other cities in the United States which have recently adopted hog-feeding include: South Bend, Ind., Madison, Wis., Cedar Rapids, Iowa, Salt Lake City, Utah, and Harrisburg, Pa. The garbage from these cities will, it is estimated, produce 3,000,000 pounds of marketable pork per annum.

Consider War a Necessity

What Germany Started War For Now Explained

Professor Charles Scott Sherrington of Oxford has sent The London Times a memorandum of a conversation he had at Heidelberg in August, 1907, with Professor Ernest Troeltsch, of the theological faculty of Heidelberg University.

In his conversation as set forth in the Oxford professor's notes, Prof. Troeltsch said that war between Germany and England was a necessity because England had so much that it was absolutely necessary for Germany to possess in order to play her role as a world state. Prof. Troeltsch, when asked what possessions Germany desired, replied: "Ports, colonies in many parts of the world: Australia, South Africa, Hong Kong, India."

The New Bismarck

Ludendorff as the New Bismarck Far Eclipsed His Model

From a report of a speech said to have been made at a dinner party in Berlin before the great drive by Ludendorff, the following passage is quoted by the Boston Transcript: "The people will stand the loss of a million men if I ask it. I shall take good care that among that million are those who talk most about peace or who give trouble. . . . Socialists be damned. By the time you fear a revolution I shall have prevented it. The men will be dead and the women, as Napoleon said, cannot make revolutions." They are hailing Ludendorff in Germany as the new Bismarck. As a man of blood and a second time over, far eclipsed his model.

B. C. Fish Output

Greater Quantity of Fish and Higher Prices

The summary of the fishing results in Canada, just published by the naval department of the Dominion government, shows that the market value of British Columbia fish in 1917 was \$8,000,000 more than in 1916. This increase, although partly due to increased prices, is not altogether so, for a greater quantity of fish has been produced, in spite of the fact that the usual big run of sockeye salmon in the Fraser river district, which was due in 1917, did not materialize, so that the pack of this grade of salmon was only twenty-five per cent. of an ordinary year. Other grades, however, were packed in greater quantities.

BUSY BIDEFORD

A DASTARDLY DEED.—While Mike Kushma, the section foreman, was travelling on the track with several friends he saw that an attempt had been made to wreck the train by some cowardly ruffian placing an obstacle on the rails lengthways. Mike stopped his speeder just in time, thus avoiding a very serious accident, as the villainous intent had been to wreck the train where it must have thrown it into a ditch. It was done on Sunday afternoon and doubtless the morning train would have been a mass of debris had not Mike providentially discovered the trick. It is a serious matter and will be investigated immediately.

U.F.A. DRIVE.—The school room was well filled on Monday evening when the U.F.A. initiated their membership drive. Mr. Louis Walker presided and introduced the speakers, who were Mrs. Dowler, of Veteran, and Messrs. Brown and Carolan of Calgary. An earnest appeal to join the U.F.A. was the object of the speeches its aims and advantages being clearly and concisely pointed out. A Women's Local was formed with Mrs. McLeod as president, Mrs. Stokoe as secretary, and a committee consisting of Mrs. Watling, Mrs. McLeod, Mrs. Thomas and Mrs. Bickle. A goodly number of farmers signed up and the Bideford U.F.A. promises to go strong.

BIDEFORD AUTO CLUB.—A gang of citizens with shovel, pick and crowbar have been busy this week "Lifting Alberta out of the rut." Starting at the town they have cleared off the rocks on the trails going east and south. It is a good work and they are conferring a boon on every farmer in the district. The B.A.C. is a live Association with an energetic secretary, and every autoist who values good roads and seeks to improve the conditions of our trails should feel duty bound to join the Auto Club. Membership fee \$5.00 per year. Join at any stores or at the depot.

Mr. Watling has received the following letter in reply to a petition sent to our member:—

Dear Sir,—I am in receipt of a largely signed petition forwarded to me by your Board of Trade in regard to some trunk roads in your vicinity. One year ago now I was doing considerable travelling over the trails in your district and know from experience how badly off your district is for lack of graded roads. I can assure you that I will do everything in my power to see that conditions in your district are remedied.

Yours truly,
H. B. NORTHWOOD.

To the Village Section of Road-workers, B.A.C.

Joe Eisenbraun lives right in town and blacksmith's for a living, but, since we got an Auto Club his services are going to be O.C. of our good Roads Gang that hangs out in the village, and with us and our implements he'll put our roads to tillage. Those rocks long-planted in our roads, embedded, yes, for ages, must now take up their bed and walk, they've proven so outrageous. The badger who has put the door into his barrowed cabin, upon our treasured right-of-way will need a new Aladdin. We'll fill his craters full of rock for he must pay the piper, and if he don't post haste and flee we'll guard him with a snipe. And then those hummocks (hold me tight) that give us kinks and creases and bump our knees into our chins, so thoroughly they fleece us, will by our skill be hawked and capped and punished to our liking, till shortly forty miles per hour you'll see us o'er them hiking. With pluck, good-will and work we'll bring the things that need attention; up to the standard of our club which I need here not mention. So you and us and our O.C. while these few lines are ending, the country's heard about our Club, its verdict will be pending. M. M.

Big U.F.A. Membership Drive

Meetings at Bideford and Monitor

Meetings were held Monday and Tuesday of this week at Bideford and Monitor and good attendances were at each town. Much interesting and useful information was given by the speakers sent out from headquarters. The first speaker at Monitor was Mrs. Dowler, who dealt very ably with the woman's aspect of the farmers' movement and urged all women to join the T.F.W.A. She spoke of the political significance of their position now they had the vote and instanced the Dower Law to show that women were now being treated with a little more justice. In speaking of war-time economy she said it was superfluous for the Government to tell the women to economise as it was in their nature to do so. She had experimented and had made a really good bread with one third of shorts to two of flour—better than the war-bread now being eaten in England. Whilst eulogising the splendid work of the farm women for the Red Cross she pleaded for a little more interest in U.F.W.A. affairs and thus help their husbands in a fight against unfair treatment. With regard to co-operative buying of fruits, etc., Mrs. Dowler said they had bought for 1.85 crates of cherries which had cost them 5.00 at the stores, peaches 80c, apples 90c., and all other fruits in season equally cheap. She did not wish it to be understood that the stove-keeper got the difference, as he had to buy of the wholesaler whilst they had bought from the grower, and she would be glad to give them the names of these growers.

Mr. C. E. Brown, an expert on the grain question, gave a most interesting address. In urging every farmer to join their organization, he said that in proportion to their numerical strength so would their political demands be listened to. In 1913, he said, their wheat was carried across the water for 1c a bushel in summer and 3c in winter, but that owing to the action of the shipping ring the rate was raised to 5c, so that on every car of wheat raised at Monitor the farmer was robbed of 500 dollars. Then again the railways took another 400.00 so the Alberta farmer was robbed of 900 dollars on every car of wheat. Added to this a set of interested manipulators depressed

the price and the poor farmers were thus doubly robbed of their fair return for all their hard work. These were some of the things the U.F.A. had fought against and had helped to alter and the farmer who would not join up was not helping to fight his own battle. In speaking of the market for wheat, Mr. Brown said that while there were 350 million of people who would eat wheat whatever the price, there were 700 millions who never tasted wheat, so that they could never raise too much wheat. Mr. Brown answered a good many questions and he urged every member to see to it that all their neighbours joined for thus only could the U.F.A. force the Government to give them a

square deal.

Regret was expressed that none of the town tradesmen were present and opinion was voiced that the U.F.A. was not in opposition to the retailer, but that the farmer and store-keeper were dependant on each other.
